ABSTRACT

The Education Program in Oklahoma is financed and operated under the provision of a contract between the U.S. Bureau of Indian Affairs and the Oklahoma Department of Education as authorized by the Johnson-O'Malley Act (JOM) of 1936. In this 1971 annual report, average daily attendance figures for participating school districts; JOM funding for meals served to indigent Indian students; the special programs project whose purpose is to work with the public schools to enrich the educational opportunities of the enrolled Indian students; the determination of a school's eligibility; the kindergarten program; the Indian Education Coordinator Program's progress in developing a communication network between the schools, the Indian parents and their children; and Oklahoma's foundation aid program are discussed. The statistical report includes exhibits such as the enrollment and attendance for 1969-70; Oklahoma state totals for 1969-70 enrollment; the expenditure of contract funds for instruction, transportation, lunches, and other services for 1970-71; the expenditure of contract funds for administration and supervision; a financial statement for the fiscal year ending on June 30, 1971; and other allocations of contract funds for 1970-71. A summary of the aforementioned exhibits is presented. Some of the items included in the appendix are the Indian Public School Contract, the Oklahoma plan for administration of JOM funds, and a map of tribal areas in Oklahoma. (HBC)

COVER

The cover illustration represents the emblem in the center of the Oklahoma State Flag, which is an Osage Warrior's buckskin shield, decorated with pendant eagle feathers. Across the face of the shield runs the red man's calumet, or pipe of peace, crossed with the white man's peace symbol, the olive branch. The shield implies defensive or protective warfare. The small crosses on the shield are the Indian's graphic sign for stars, which indicate lofty ideals or a purpose for high endeavor. The important symbols, however, are the calumet and the olive branch. These override the shield, the symbol of war, and represent a pre-dominate love of peace by a united people, and the union of the Indian Territory and the Oklahoma Territory into the one great State of Oklahoma.

FOREWORD

The Indian Education Program in Oklahoma is financed and operated under the provision of a contract between the U.S. Bureau of Indian Affairs, Department of The Interior, and the State Department of Education. The supervision of the program is carried out entirely by the State Department of Education as authorized by the Johnson-O'Malley Act of 1936. Prior to 1947 the program was administered by the Indian Bureau.

This Twenty-Fourth Annual Report of Indian Education in Oklahoma has been prepared by the Division of Indian Education to comply with State Contract No. GOOC14201591.

We wish to extend our appreciation to Mr. Virgil N. Harrington, Area Director of the Muskogee Area; to Mr. Sidney Carney, Area Director of the Anadarko Area; and, to their staff members for their cooperation and assistance in carrying out the program of Indian Education.

Sincerely, ~

Leslie Fisher, Superintendent
State Department of Education

INTRODUCTION

The statistical tables outlined below are in accordance with
State Contract No. GOOC14201591.

1. A statistical table giving
 - (a) number of schools
 - (b) tax rate
 - (c) enrollment and average daily attendance of all pupils
 - (d) enrollment and average daily attendance of Indian pupils
 - (e) Table IB-5-A
2. A statistical table showing how much of the Johnson-O'Malley funds were expended for
 - (a) instruction
 - (b) transportation
 - (c) lunches for indigent Indian pupils
 - (d) -1 special programs (d) -2 kindergarten programs
 - (d) -3 summer programs (d) -4 other expenses
 - (e) total amount expended
3. A table showing the expenditures of contract funds for administration and supervision, visiting coordinators, (with titles and individual salaries) and expenses.
4. Any additional tables and information necessary to meet the needs of the State and Area Offices may be included, but must be separate and apart from the first three (3) requirements.

5. A brief narrative statement of the problems involved with Indian Education within the State and steps being taken to solve them.

For convenience in the preparation and use of this report, the following divisions will be used:

- I. Introduction
- II. A Narrative of the Conditions of Indian Education in Oklahoma
- III. Statistical Tables in two groups, namely
 - (a) Exhibit "A" (1) through "A" (4) meets the minimum requirement of the Manual.
 - (b) Exhibits "B" through "H" contain the additional statistics necessary to the efficient operation of the program.
- IV. A brief Summary
- V. Appendix

NARRATIVE

The school year 1970-71 has been one of the most successful in the history of the Indian Education Division. With emphasis on an ever-expanding and broadening area of services, the number of Indian students served surpassed that of any previous year.

The following narrative will describe briefly the various activities the Indian Education Division has been involved with this year.

In 1970-71, the total reported Indian enrollment for Johnson-O'Malley schools was 13,809. These schools showed an average daily attendance of 12,329, which amounts to a 93% attendance figure. The above figures include only those students who possessed one-fourth or more degree of Indian blood and resided outside the corporate limits of towns and cities of 500 or more population.

Participating school districts numbered 253. Of this total, 26 schools showed a 40% or more total Indian average daily attendance, and 13 schools showed a 50% or more Indian average daily attendance, when calculated against the total ADA of the respective schools.

With assurance from the School Lunch Division that school districts would continue to receive support for the cost of meals served indigent Indian students, the first phase to gradually replace Johnson-O'Malley funding for meals served to Indian students began. Each Johnson-O'Malley school received 10¢ for each free or reduced cost meal served to supplement the amount received from the School Lunch Division and the National Hot Lunch Program. The

second phase will be implemented during the school year, 1971-72, when a disbursement of 5¢ for each free or reduced cost meal will be made to the local schools. The total responsibility for assuming the full cost (maximum of 35¢) for meals served indigent Indian students in 1972-73 and thereafter will be asorbed by the School Lunch Division. Under the new operation, the National Hot Lunch Program does not restrict those Indian students living within the corporate limits of towns and cities of 500 or more. Before, those students were ineligible for Johnson-O'Malley lunch funds. The total number of schools receiving lunch reimbursements in 1971-72 amounted to 272.

With an increased availability of funds due to the lunch phase-out, a greater emphasis has been directed toward enriching the educational opportunities of Indian students in the public schools. Special Programs, as it is titled, allows the local districts, which includes the Indian communities and the school administrators, to develop and implement programs for their respective schools that best fits the educational needs of the Indian students enrolled there.

The local administrator is required to utilize input from the Indian community of his school district by organizing an Advisory Board, made up of Indian patrons from that district. Requests for programs made to the Indian Education Office are required and have to show an approval by both the administrator and the Advisory Board before they are acted upon.

The purpose of the Special Programs Project is to work with the public schools to enrich the educational opportunities of the Indian students enrolled there. Schools participating presently are those that have a large number and/or high percentage of Indian

students in their enrollment. Because the Special Programs are designed to supplement programs in a manner that would be above and beyond the financial effort that each local school was making, requests for each school's Title I expenditures and the amount of local millage being voted is made. From these sources, each school's eligibility is considered.

When a school's eligibility is determined, members of the Indian Education Division staff make personal visits to the schools to discuss with the superintendents the various programs they and their advisory boards are considering. The final step toward funding is a letter of request by the respective schools to the Indian Education Office, listing their needs and approval by the board for them.

A summation of cost and availability of personnel involved for each proposed program is requested from the school officials for final approval by the Indian Education Office. All schools are requested to make an effort to find qualified Indian people to fill positions created by the programs. As a result of this request, many Indian people, particularly aides, have been hired. In many cases, Indian teachers, when available have been hired. The various programs that were set up for the school year 1970-71 included teacher aides; teachers for remedial reading and math; counselors; teachers for class-size reduction; teachers for specialized areas; particularly art; programs for tutorial services; and, summer school projects for remedial students. Total number of Special Programs funded this year amounted to 104; an increase of 18.

The Kindergarten Program has continued to operate under the same eligibility criteria as the Special Programs, and thus, 67 schools were supplemented for Kindergarten teachers; teacher aides;

and supplies in 1970-71. This was an increase of 21 additional Kindergartens supplemented by this Division.

The most outstanding, and no doubt the most popular with the school people and Indian parents, is that of our Indian Education Coordinator Program. These fourteen Coordinators have made tremendous inroads toward developing a communication network between the schools, the Indian parents and their children. This has been accomplished by the Indian Education Coordinators working with considerable amount of freedom to do whatever they deem necessary to assist in their respective areas. Following are some of the duties of a Indian Education Coordinator, in an assigned area of the State:

- 1) To visit schools and confer with school personnel in order to learn the problems confronting the Indian students; to locate and enroll all school-age Indian students in an area; to alleviate problems which might keep children out of school, or cause them to leave,
- 2) To visit Indian homes and explain the importance of regular school attendance, explain various school policies and regulations, school lunches, and other school matters; encourage parents to attend school sponsored meetings,
- 3) To counsel with Indian students and drop-outs, encourage them to further their education; help students make decisions concerning higher education or vocational training,
- 4) To cooperate with the local branches of government, the Department of Institutions, Social and Rehabilitative Services, the State Employment Office, the Bureau of Indian Affairs, and with local organizations such as civic groups and churches; to attend meetings concerning matters such as tribal council meetings,
- 5) To arrange for medical care, transportation, free lunches, etc., for students unable to provide for themselves,
- 6) To work with grant officers for higher education from the Anadarko and Muskogee Area Offices in assisting students with post-graduate plans.

During 1970-71, one additional Coordinator was employed to work in Pawnee, May, and Noble counties. This brings the total number of Coordinators in the State to fourteen, with areas including those above the encompassing the following counties: Adair, Blaine, Caddo, Cherokee, Cleveland, Comanche, Creek, Custer, Dewey, Delaware, Hughes, Kingfisher, Kiowa, LeFlore, McCurtain, Okfuskee, Oklahoma, Okmulgee, Pottawatomie, Seminole, and Sequoyah.

Questionnaires pertaining to graduating seniors are mailed to all high schools enrolling Indian students so that the Indian Education Coordinators or members of the Indian Education staff can counsel with them in determining what direction they plan to follow after high school. The counselling process concerns information regarding educational opportunities available through the Bureau of Indian Affairs and/or other types of scholarship programs. This program includes those students living in the metropolitan areas of Oklahoma City and Tulsa, plus students attending non-Johnson-O'Malley schools. Because of the increasing number of Indian high school graduates each year, this service has become one of the more important functions of the Indian Education Division. All information received from the schools is forwarded to the Anadarko and Muskogee Area Offices for possible use in their higher education programs.

The Indian Education Division funded a Teacher Aide institute, which was held at East Central State College, Ada, Oklahoma. The institute was administered by the East Central Department of Education and Psychology, and designed to create better understanding of what a teacher aide's role in a school should be. Specifically, the institute's objectives were to 1) to improve

technical skills, 2) relate information concerning Indian culture and history, and 3) to allow the aides to exchange ideas related to solving common problems encountered in their respective schools.

Participants were those aides hired by schools being funded for Special Programs and Kindergarten Programs. Aides who qualified for college admission earned three hours of college credit for the two weeks work. Indian Education Coordinators served as group leaders for the institute.

The Foundation Aid Program for the State of Oklahoma is a comparison between the school year 1963-64 and the current school year. This comparison is made on superintendent and principal increments, minimum program salaries for same number of teachers a school district qualified for in 1963-64, transportation allowance, transfer fees receivable, net 15 mills on personal property and public service valuation, and gross production taxes. The increase or decrease of these items is added to base years equalization aid. The 1963-64 average daily attendance is divided into current years adjustments to establish a Q factor. The Q factor is multiplied by previous years average daily attendance to determine the amount of Foundation Aid receivable.

Incentive Aid for 1971-72 is a flat grant of \$92.00 times previous years average daily attendance, provided a school district votes the 5 mill emergency levy. This can vary according to the mills levied.

The sum of Foundation Aid and Incentive Aid is the Total State Aid a district receives.

All these programs administered by the Indian Education Division could not have been done without the cooperation of many people, including Bureau officials of the Anadarko and Muskogee Area offices, the Branch of Public School Relations, Albuquerque, New Mexico, the various agencies concerned with the welfare of Indians, the office of the State Superintendent, and the many Indian people throughout the State who have offered expertise in many different areas.

Finally, a special recognition to the staff of the Division of Indian Education, who through their total effort made it possible to make this year a successful one.

STATISTICAL REPORT

Statistical Tables:

1. EXHIBITS "A" (1) THROUGH "A" (4). This part of the annual report contains tables of statistical data to comply with State Contract No. GOOC14201591.
2. EXHIBITS "B" THROUGH "H". These tables contain information necessary to the operation of the program in so far as the Division of Indian Education, State Department of Education, and the Area Offices are concerned.

The explanation accompanying each table gives, briefly, the nature of the data it contains. All of the tables are shown by counties where a breakdown is given. The county totals were compiled from the reports of each district participating in the program. All of the data of each individual district is on file in the office of the Division of Indian Education.

NUMBER OF DISTRICTS AND SCHOOLS. There were 272 districts with 272 schools located in 57 counties participating on the program for 1969-70. 1/ Of the 272 schools, 32 were Equalization Enrichment, or BASIC SUPPORT, AS THEY ARE NOW IDENTIFIED, and 241 were Special Service. 2/

TAX RATE. All schools to receive Johnson-O'Malley Funds, must levy the maximum of twenty (20) mills. This is equal to the fifteen (15) mills required for state equalization aid plus the five (5) mills local initiative. This rate applies to all classes of schools.

1/ 1969-70 is the qualifying year for fiscal year 1971.
See Appendix for 1970-71 Statistics

2/ The difference in number of schools is due to annexations.

Due to the annexing of some schools, who did not file reports, there is a decrease in Enrollment and Attendance. An increase should be reflected, next year, when the receiving schools report their Enrollment and Attendance.

36 schools are 40% or more Indian ADA, 17 of these are 50% or more.

NOTE: This Enrollment and Attendance Table is for the school year 1969-70, on which the payments for 1970-71 were be made.

EXPLANATION

Re: IE-5-A

KEY TO INDIAN ENROLLMENT, FORM IE-5-A

- 1/ Students known to have re-enrolled in another school of any type.
- 2/ Alphabetical keys for dropouts as follows:
 - (a) with-drawn by parents
 - (b) marriage
 - (c) employment
 - (d) detained by law agencies
 - (e) illness
 - (f) death
 - (g) expelled
 - (h) other

Note that each column, EXCEPT at the extreme right, is for Johnson-O'Malley assisted Indian students only. The extreme right column is total enrollment of all students, regardless of ethnic group, enrolled in Johnson-O'Malley participating schools.

In the second column from the extreme right, TOTAL COMPL., means the total completing the GRADE.

The difference in total enrollment and average daily attendance, shown on the regular Attendance and Enrollment Table, Exhibit "A" (1) in the two reports, and the Enrollment (Age-Grade-Dropout) Table, is due to a few Johnson-O'Malley schools including some pupils residing in town, and several schools not filing IE-5-A reports. PAYMENTS are made on the basis of the ENROLLMENTS as shown on the Enrollment and Attendance Table Exhibit "A" (1).

Indian Education Program

Public School Contract

1. Definitions. (a) The term "Contracting Officer" as used in this contract refers to the official of the Bureau of Indian Affairs, who executes this contract on behalf of the United States of America or any persons authorized to act for him in his official capacity or his successor.

(b) The term "designated representative of the Contracting Officer" when used by the Contracting Officer during the performance of this contract means those persons designated by the Contracting Officer to perform certain specified functions required by the terms of the contract and the general provisions.

(c) The term "eligible Indian children" as used in this contract means those children who possess one-fourth or more degree of Indian blood whose parents reside outside the corporate limits of towns having a population of 500 or more.

(d) "State" means the State contracting for the education of Indian children.

(e) The term "school district" is the local unit of school administration as defined by the laws of the State in which it is located.

2. Indian Education Program.

The Contractor agrees:

(a) To provide education for all Indian children, residing in the State of Oklahoma under the same terms and conditions as for all other citizens of the State.

(b) To secure regular attendance of Indian children in public schools in accordance with the laws of the State and regulations promulgated by the Secretary of the Interior.

(c) To allot to schools enrolling eligible Indian children all funds and aids to which public schools of the State are legally entitled.

(d) To determine and justify the total amount of the contract and the amount allotted to each school district in keeping with the State Plan formulated by representatives of the State and Bureau of Indian Affairs and approved by the Commissioner of Indian Affairs.

(e) To submit to the Contracting Officer an operational budget to be made a part of this contract and to provide other estimates and reports as may be required by the Contracting Officer or his designated representative.

(f) To allot funds provided under this contract only to school districts that (1) have eligible Indian children attending schools, (2) maintain standards of educational service equivalent to those required by the State, and (3) levy school taxes at a rate not less than the average for all similar type school districts in the State; (4) or assistance otherwise justified under the approved State plan or agreements with local school districts.

3. Payments. For carrying out the program agreed upon, payment will be made to the Contractor in the amount of One Million Five Hundred Fifty-two Thousand Seven Hundred Fifty Dollars and No Cents (\$1,552,750.00); payments to be made quarterly upon receipt and verification of invoices submitted by the Contractor, such invoices to be based on actual expenditures.

4. Contract Term - Termination - Renewal - Modification. This contract shall be for the period beginning July 1, 1969, and ending June 30, 1971, subject to termination at any time upon sixty (60) days' written notice given by either party to the other. Unless so terminated, the contract may be renewed annually by the Contracting Officer for successive one year terms commencing July 1 of each year upon submission and acceptance of an approved budget developed in accordance with the State plan, subject to the availability of appropriations

and subject to termination during any such period as provided above. This contract may be modified in writing by mutual consent of both parties.

5. Access to Facilities. The Contracting Officer or his designated representatives shall have access to the schools in which Indian children are enrolled, at any time for observation, consultation, and evaluation.

6. Inspection of Programs. The Contractor shall make available to the Contracting Officer or his designated representatives such records and reports as may be necessary to enable them to conduct inspections of the school program in the schools receiving funds under this contract.

7. Approval. The Contractor shall secure the concurrence and approval of the Contracting Officer before appointing or termination, the services of any employee in the Division of Indian Education, State Department of Education; when funds provided under this contract are used to pay all or any part of his salary and expenses.

8. Visiting Coordinators. Visiting Coordinators employed under this contract must be available to transport Indian children to clinics, doctors, dentists, children court, etc; and to and from home as may be necessary. When such transportation is provided, the coordinators must carry liability insurance in the amount of \$100,000 - \$300,000.

OKLAHOMA STATE PLAN
(for Administration of Johnson-O'Malley Funds)
1970-71

Purpose

The purpose of this plan is to outline the procedure to be used in administration of Johnson-O'Malley funds received by the State of Oklahoma and to provide the guidelines within which the school and school districts may participate in the program.

Provisions

1. Distribution of Johnson-O'Malley aid will be made on the basis of average daily attendance of eligible Indian children in schools which have limited and inadequate enrichment funds after all other sources of financing are considered (including Local, State and Federal.)
2. Eligible Indian pupils shall include only those who possess one-fourth or more degree of Indian blood, and whose parents or guardians reside outside the corporate limits of towns having a population of 500 or more.
3. Eligibility of school districts and schools for Johnson-O'Malley funds from the State, is dependent upon their meeting the following requirements:
 - a. Levy at least an additional 10 mills above the required levy for State Equalization aid.

- b. Justify the request for funds based on the need after all other sources of revenue are considered including funds from P. L. 874.
 - c. Have an ADA of at least five eligible Indian pupils in small schools (total enrollment of less than 200 students) and at least 5% of the total ADA in schools enrolling more than 200 students, except as indicated in provision 6 and 7 a.
 - d. Must be eligible for, and receive State Equalization Aid.
4. Any unobligated funds received from the Bureau of Indian Affairs for any fiscal year shall be offset against the consolidated State budget for ensuing fiscal year. An amount of the State annual contract may be carried over at the end of the fiscal year for administrative and operational costs by the Division of Indian Education, Oklahoma State Department of Education.
5. Johnson-O'Malley funds may be requested by the State for three major purposes as follows: General Support, Special Services, Kindergarten and Supervision.
6. General Support funds may NOT be provided for schools receiving P. L. 874 payments.
- Schools with less than 200 total ADA must have had at least five or more eligible Indian pupils in ADA or 5% of the total ADA, whichever is the greater, the previous school year. Schools with 200 or more total ADA must have had at least 10% or more Indian pupils in ADA the previous year. The amounts granted to these schools is based on a formula as follows:

a. Schools with forty per cent (40%) or more Indian pupil average daily attendance:

(1) With less than one hundred (100) total ADA:

$(\$40.00 - *PLI) \times \text{total ADA.}$

(2) With one hundred (100) or more total ADA:

$(\$30.00 - PLI) \times \text{total ADA.}$

b. Schools with less than forty per cent (40%) Indian pupil average daily attendance:

$(\$40.00 - PLI) \times \text{Indian Pupil ADA.}$

*PLI is the Per Capita Local Initiative which is determined by the net income from a levy of 5 mills based on the net valuation of the district for the previous year.

7. Special Services may be requested to provide for a variety of needed services to Indian students. State and Bureau officials will jointly develop Special Service Programs under section d and e of this provision. Special Services may include, but are not limited, to the following:

- a. Reimbursement for lunches furnished by the schools to eligible Indian pupils who cannot afford to pay for them or for whom the school does not receive total reimbursement from other sources. If the claim is for fewer than five children the school is ineligible.
- b. Transportation of eligible Indian pupils who live 1-1/2 or more miles from school unless otherwise provided except in schools qualifying for Public Law 874 payments. This does not apply to Indian Boarding School pupils attending Public Schools.

- c. Reimbursement for necessary lunches and supplies to school districts enrolling children who stay in Bureau dormitories.
 - d. Counseling services in schools and communities with large numbers of Indian children attending school.
 - e. Other enrichment and special need programs which are designed to meet the different needs of Indian students.
8. Normally, administration costs should not exceed 5% of the total program. However, the allocation for administration should take into account the number of children served, special services provided, and other factors affecting administration provided.
9. Periodic and annual visitations to J. O. M. schools are to be made by State Johnson-O'Malley personnel. When it is the desire of Bureau Officials to visit J.O.M. schools for the purpose of observation or evaluation, under "Access to Facilities" clause of the State Contract, it shall be a joint venture with Johnson-O'Malley personnel. Visits to be made to the extent possible within budget and time limitations. The visits will be made to review schools (enrolling eligible Indian pupils) programs which are supported through Johnson-O'Malley funds. Johnson-O'Malley personnel may visit schools enrolling Indian pupils that are not supported by Johnson-O'Malley funds. It is very important that such programs recognize and provide for the special needs of Indian children. If there are program deficiencies that exist which cannot be fully funded locally or through other

sources this should form the basis for future Johnson-O'Malley budgetary requests.

10. School administrators will involve the Indian citizens in the community in the Johnson-O'Malley programs to be developed for the educational benefits of Indian children.
11. A budget request shall be submitted on or before March 15, each year, for the 2nd succeeding fiscal year. Justifications shall accompany the budget request.
12. On, or before August 15, an annual review of the Johnson-O'Malley program and budget request shall be made by State and Bureau officials. Based on this review and visitations to schools, a State Johnson-O'Malley contract is negotiated between the Bureau of Indian Affairs and the State Department of Public Instruction to provide needed financial support within funds available to the Bureau.
13. An Annual Report shall be submitted on or before October 15, each year and shall contain narrative and statistical information regarding the Johnson-O'Malley program in the previous school year. It is mutually agreed by the State Department of Education, Indian Education Division and Bureau of Indian Affairs officials, that a consolidated Budget, by counties, be prepared in lieu of BIA Manual regulations on an individual school district basis as required by BIA Manual 62 IAM 3.2.11.C.
